Subject: Oregon 303d list

Mark,

Thanks for the chat last night. Here are some points on process improvements:

   *   DEQ is now on schedule to produce an Integrated Report and 303(d) list every two years.
   *   DEQ is currently in the process of developing its 2018 Integrated Report and 303(d) list and
anticipates initiating the call for data for the 2020 Integrated Report in winter 2019.
   *   DEQ's process improvements include a statewide call for data, modernization of data infrastructure,
and a clear and transparent assessment methodology.

I'm hoping you/EPA might be able to fill in the highlighted areas below for DEQ's talking points:

   *   The final updated report added #??? water bodies and removed #??? water bodies from Oregon's 303(d)
list.
   *   A brief summary of changes include:

Thanks!
